

The Benefits of Mobile Electronic Inspection Tools

Presented to:

12/11/2015

What is an electronic inspection tool?

Mobile Inspection Software

UST Programs

- 2006 - NH DES
- 2009 - CT DEEP
- 2010 - ID DEQ
- 2011 - VI DPNR
- 2012 - NC DENR
- 2013 - SC DHEC
- 2014 - RI DEM
- 2016 – DC DOEE

Expected Benefits

- Improved data quality
- More inspections per inspector
- Consistent enforcement
- Better documented inspections

Demonstration

Improved Data Quality

- All data in the field
 - Verify registration data
 - Fix incorrect data in the field
- Automatic data validation
- Collect/Correct GPS coordinates

More Inspections per Inspector

- **SAVE TIME**

- Download registration information
- Inspection scheduling in the field
- Automatic generation of reports
- Deliver reports on-site or via email
- Upload inspection reports

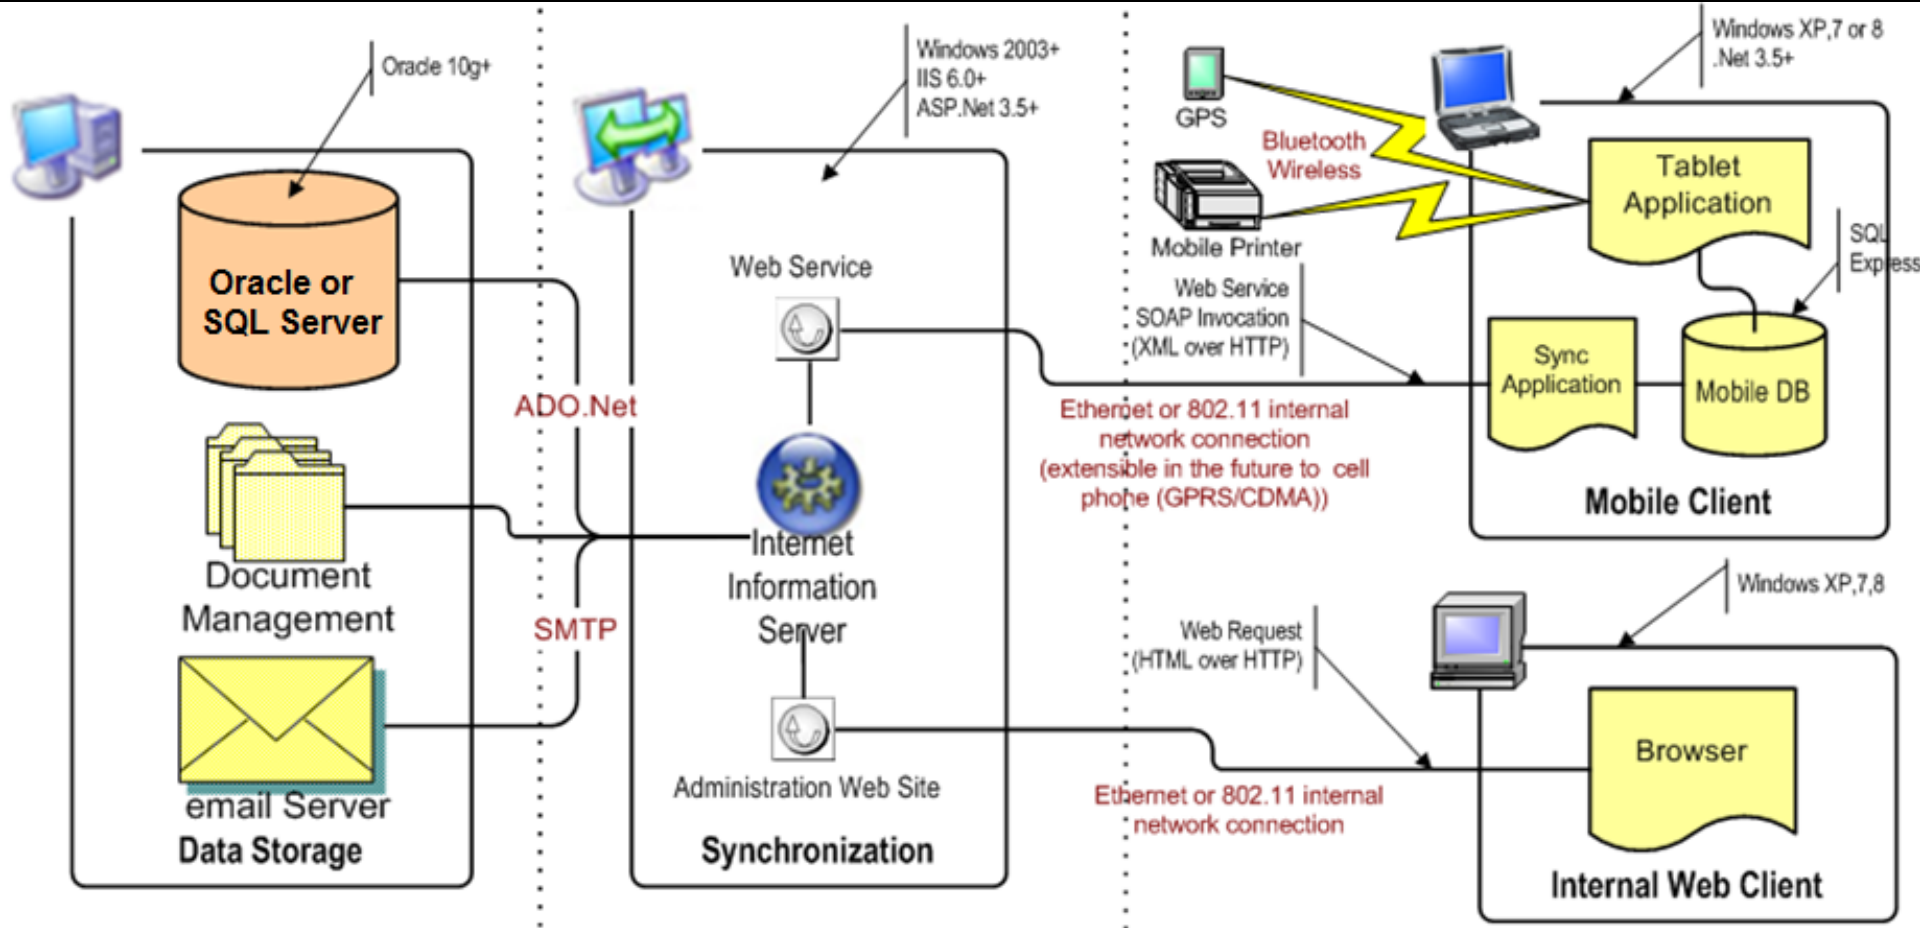

Consistent Enforcement

- Library of violation descriptions and corrective actions
- Automatic violation calculations
- Enforcement tracking

Better Documented Inspections

- All inspection results are documented
- Atomically calculated violations are supported by data entered
- Standard report templates
- Site diagram
- Automatically calculate SOC Metrics

How does it work?
